

#diffusionfilter

Atmospheric look: controlled haze and rich blacks

Description

Vapour is Schneider-Kreuznach's diffusion filter designed for a atmospheric look. A fine, controlled haze gently lowers contrast while preserving the deep, rich blacks essential for modern productions. The Vapour delivers natural skin tones, halation, and a refined mist effect for a clean, contemporary cinematic image.

Application

Vapour softens the image and adds a subtle atmospheric layer without overpowering contrast or detail. It is ideal for creating a lightly veiled, modern filmic look while maintaining control over depth, skin tones, and shadow integrity.

Key Features

- Subtle haze effect with gentle contrast reduction
- Deep, rich blacks with stable shadow detail and controlled halation
- Natural, flattering skin tones with balanced image softness
- Available in one strength for consistent results

Sizes Plates

4x5.65", 6.6x6.6"

Sizes Screw-In

M77, M82

Filter Range: Plates

| Stock Code | Stock Code US | Filter Type | Thickness (mm) | Size (inch) | Weight (g) |
