

#effectfilter

For colored, anamorphic-like streak effects

Description

Simulate anamorphic streak effects with virtually any lens. Fine, colored tubes within the filter's glass result in symmetric, colored streaks that emanate symmetrically from point light sources, e.g. like the sun, light bulbs or candles. True-Streak® filters are available in different colors and strengths for individual and controllable effects.

Application

A creative tool to achieve an outstanding imagery with stunning effects. For instance: Enhance your night exteriors, highlight reflections of shiny surfaces or create old-school vintage light effects.

Key Features

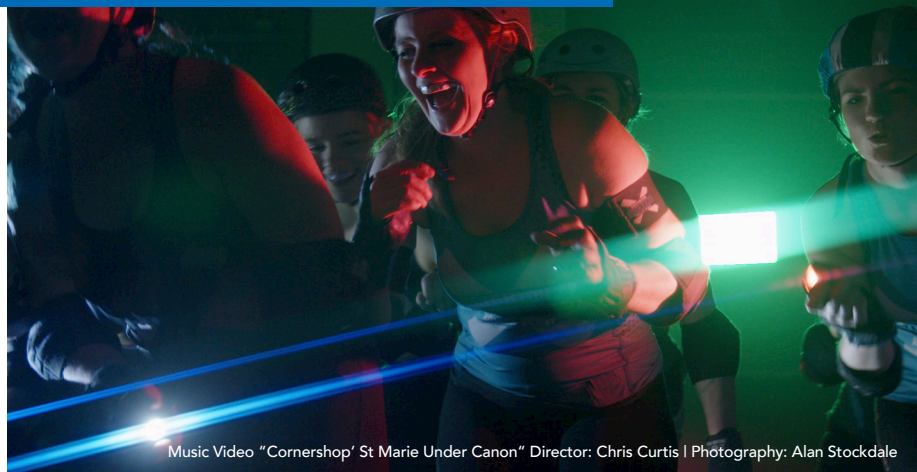

- Anamorphic-like streak effects
- Emanate symmetrically from point light sources
- Three colors: clear, blue and gold
- Four strengths: 1 mm (strongest), 2 mm, 3 mm and 4 mm (subtlest)

Sizes Plates

4x5.65", 6.6x6.6"

Size Screw-In

M77 ROT, M82 ROT

Filter Range: Blue
