

Discover the perfect Diffusion Filter for your Creative Vision

The Magic of Diffusion Filters

Unlock the full potential of your cinematic visions with Schneider-Kreuznach diffusion filters.

These high-quality filters are designed to subtly soften light, reduce harshness and enhance the overall aesthetic of your shots.

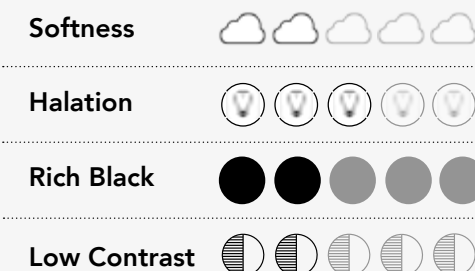

With a variety of diffusion filters available, each with unique characteristics and effects, choosing the right one can take your work to new heights.

This guide will help you understand the differences between the various types of our diffusion filters and ensure that you choose the perfect filter to achieve your desired look and feel.

Radiant Soft®

Multi-talented skin enhancer

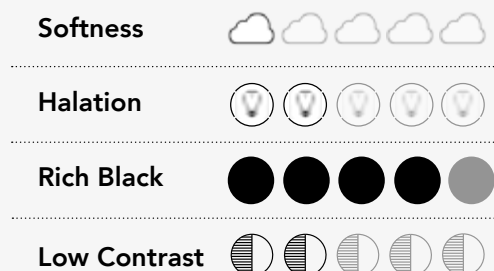

- + Gives skin a soft glow
- + Tones down imperfections
- + Does not change the surroundings
- + Little effect on highlights/contrast

Radiant Black®

Haze-free skin tone elegance

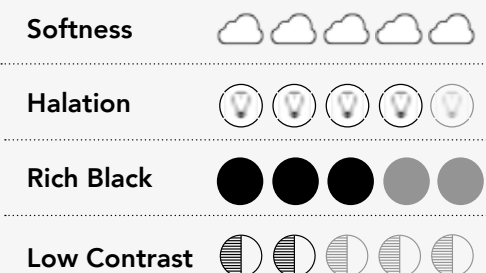

- + Beautiful skin tones while keeping rich blacks
- + Virtually no halo
- + Preserves contrast

Hollywood Black Magic®

Smooth halation at all strengths

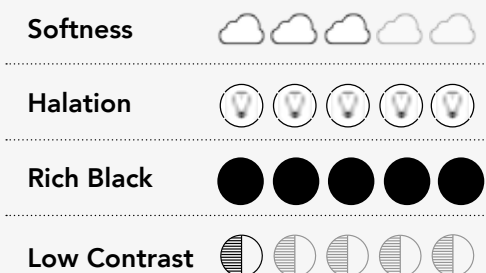

- + Pleasant filmic look
- + Rich blacks and colors
- + Reduces high-res digital look
- + Softens blemishes & wrinkles

Black Frost®

For smooth images and deep blacks

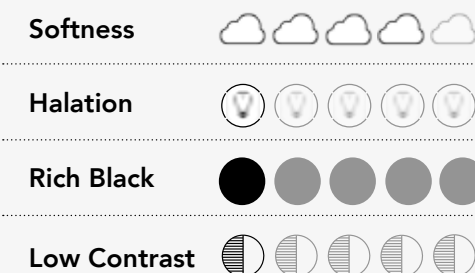

- + Reduces contrast for a softer image
- + Keeps control over flares & shadows
- + Retains rich blacks
- + Mutes colors

Classic Soft®

Softens images but retains sharpness

- + Blends small wrinkles and blemishes
- + Maintains focus, adds a soft overlay
- + Keeps contrast
- + Adds soft glow to highlights
