

#polarizer

The Linear Polarizer with high extinction ratio.

Description

Linear True-Pol® reduces glares and unwanted reflections, improves contrast, penetrates haze at long distances, deepens blue skies, and helps to maintain color saturation.

Application

With their absolute clarity of the glass and advanced polarizing material, True-Pol® filters are particularly effective on demanding scenes, e.g. when shooting in a car through windshields or big landscape environments.

Please note: Only suitable for Non-AF systems (s. below).

Key Features

- High extinction ratio
- Reduces glares, haze and unwanted reflections
- Provides saturated colors and improves contrast

! For Non-AF systems. Do not use with AF systems or beamsplitters ! Choose Circular True-Pol® for those.
